IT
Delivering **quality, cost-effective IT** to businesses of all sizes.

We cover every aspect of your business IT infrastructure from integrating networks, security, backup & recovery and cloud services to providing the most appropriate hardware and software for your individual needs.

- Licence auditing and management
- Hardware and software solutions
- Business continuity strategy
- Business IT security systems
- Remote working solutions
- Proactive support
- Secure, scalable hosting

IT Solutions

We provide our customers with innovative and cost-effective business solutions through the efficient deployment and integration of IT. We work with you to ensure we deliver the right solution for your business' individual requirements.

- **Business hardware and software solutions**
- **Enterprise backup and recovery solutions**
- **Hosted Desktop & Hosted Exchange**

Business Security Systems

Our Security solutions provide and integrate security within all areas of your business. We can help you assess, manage and reduce potential risks or remove the risk completely, whilst ensuring you stay compliant with the latest legislation.

- **Business firewall and antivirus solutions**
- **Data loss prevention**
- **Business CCTV camera systems**

Business IT Services

We work with you to ensure we deliver an IT service that exceeds your individual business requirements, including hosted/cloud, on-premise and outsourced IT.

- **Cloud IT delivered via secure, high-spec data centres**
- **Outsourced IT services**
- **On-premise IT solutions**

Support

At the heart of every project we undertake is a team of dedicated professionals who are on hand to help when you need it most. By understanding your IT requirements we can strategically support you and your business.

- **Experienced engineers and friendly help desk**
- **24/7 or business-hours support**
- **Online support portal to log and track faults**
